SOVIET FLEET FORCES PASSAGE OF DANUBE Red Army Re-Established On New Minsk Line

STAGGERING BLOWS TAKEN IN CLASH OF TANKS

(SPECIAL TO "SUNDAY HERALD")

BRITISH OFFICIAL SOURCES, COMMENTING ON DEVELOR-MENTS IN THE CRITICAL VILNA-BARANOVITCH SECTOR OF THE RUSSIAN FRONT, STATED LAST NIGHT THAT THE RUS-SIAN ARMY HAS RE-ESTABLISHED ITSELF ON PREPARED LINES IN FRONT OF MINSK, FIRMLY LINKED WITH ITS FLANK SOUTH OF BARANOVITCH.

The withdrawal was effected skilfully in the face of terrific German pressure after a violent exchange of staggering blows along the Vilna-Blodsky-Baranovitch line, in which the German

panzer columns suffered serious tank losses.

Another convincing proof of the Mohmand (North-West Frontier) tribes' friendship for Britain is afforded by the treatment meted war 'yesterday.-Reuter.

AMERICAN AID FOR China is beginning to take fairly substantial shape and it was learned reliably in Washington yesterday that one measure in connection with this will be the appointment of an American political adviser to General Chiang Kai-shek.

His name has not yet been announced but it is reported confidently that he is Mr. Owen Lattimore, the noted authority on Far Eastern affairs, particularly China and her border problems, and present head of the Walter Hines Page School.

An official announcement to this effect is expected in a few days. Precisely what the duties of the political adviser will be, is not known but it is believed in Washington that the appointment will not be by the State Department but by the While House and will be connected with the organisation set up for assistance to China after Mr. Laughlin Currie return! might force Berlin to turn on the ed from his investigation trip to heat in Tokyo, which would pre-Chungking.

By this time, it is confidently expected, China will have an air force of American aircraft euperior to the 'planes Japan is now using in China,

The situation is then expected to be not whether Japan is likely to move northward to Siberia or southward to the Dutch East Indies but whether she can possibly hold what she has got in China now.

America and Japan are about equal. I am leaving out of account the ships building and projected in 1939, because most of these are, an insurance for the future rather than strength immediately available.

Assuming, therefore, that would be American policy to settle once and for all the -Japanese menace, which for so long has weighed on American minds, the bulk of the American Fleet would, in my view, be maintained in the Pacific, and would be compelled to challenge Japan in the Far East.

Poverty And Plenty In The Colonies

IOSE great ex-colonies, the Dominions, are , among the soundest and healthiest political units in this disordered world of ours. .

But, of course, the majority of the British colonies are still not wholly independent; and we, their rulers, know far too little about them and their peculiar needs.

We take it as a compliment to ourselves that their war gifts are as spontaneous as they are generous. 'Their economic producttion is useful, often infportant, and we rather leave it at that.

Sometimes, indeed, ultra-imperfalists beast of the vast (undeveloped) resources and the inlinite variety of the countries, of the Empire, There is great varicty—but the colonies also have one feature in common. Public attention has recently been drawn to conditions in the Colonies by the Report of the Government Commission of Inquiry into last year's riots and strikes in the Northern Rhodesian Copper Belt.

Conditions of native workers in the copper mines are far from satisfactory, but, as a result of the Commission's Inquiry, conditions will be improved.

This is only one of many Colonial problems. In this article, W.M. Maemillan discusses others equally important, and shows the effect of the war on the Colonial Empire.

Development And Social Welfare

As a general rule, even the present gain of most of the colonies is less than it ought to be. In almost all of them mining companies are registered in the United Kingdom, and the yield to the producing country is enormously reduced since the first charges on makings are British income- tax (at 8s, 6d, or more) and "E.P.D."

We must and can afford to be generous to our colonial allies.

It is in fact only since the war broke out that the British Government has awakened to a vided, while the Nazis' supplies pled bush, most of it infested with full realisation of the essential poverty and backwardness which are the "colonial problem."

AN M.P. FOR H.K.?

In an article elsewhere in this issue dealing with poverty and plenty in the Colonial Empire, Professor W. M. MacMillan throws out the suggestion that the Colonies should send their own Members of Parliament to the House of Commons in Westminster. He is thinking, primarily, no doubt, of those colonies in Africa with which he has a close and understanding acquaintance. But he is thinking, too, of special problems associated with them; franchise difficulties, educational standards, political development and other factors calculated to retard the achievement of full self government; and he is seeking an interim alternative form of representation, with direct access to, the ear of the Secretary of State, to serve until the bolder reform is feasible. From that point of view, the sort of Colony which the Professor has in mind is plainly not far removed from that of a Colony so constituted as Hong Kong. And from that point of view, also, it can neither be said that the idea is altogether original nor that it is as revolutionary as! convention that has grown up in Hong Kong with the passage of the years. Doubts were shed like clouts in June. Not a night has passed since that has not seen a tremendous blow struck at German industrial targets and naval bases. Not a day has passed without paralysing operations by carrying the war to Hitler.

Effect of the magnificent demonsive formations, carrying out offensive sweeps over the "invasion zone," have swiftly achieved precisely what the Luftwaffe attempted to do in the Battle of Britain last Autumn and so disastrously failed to do. If the unmerciful toll of enemy fighters diminished as the week drew to a close, delight was not proportionately diminished. It was the Nazi acknowledgment that the RiA.F. had established mastery of the air over the enemy-occupied territory. Messerschmidts were no longer prepared to accept the challenge on the terms offered.

Economic War

The United States saw the obvious meaning of the Russo-German clash as vividly as Britain. The announcement of Mr. Churchill was swiftly echoed; and an assurance of all possible aid to Russia given. Implementation of the assurances, nevertheless, presents acute problems, but they must be overcome unless the truth is not fully grasped, and the danger behind every other danger is overlooked. Nevertheless, there is this excellent prospect, in addition to Hitler's conscious action in deliberately closing his own backdoor to the British blockade; that the factory front in America will not be so liable through the strike fever to interrupt the industrial means of pursuing the fighting purpose.

RANDOM COMMENTS Wanted: More Women Employment of women in Australia's War

WE ran across a report in the Adelaide "Advertiser" which we think is interesting, and we present it as a poser to the Husband's Evacuation Committee whom, we learn, are on the march

Says the report: "Employment returns for the first quarter of this year indicate that on March 31 unemployment in Australia had fallen to a record all-time low level as a result of the rapid absorption of available manpower into industry."

"it is estimated that of the total employable population of the Commonwealth only about 3 per cent, were out of work at the end of March. At least 300,000 jobs in defence industries have been filled by men and women who were not working when the war began, and employment in these industries is increasing steadily."

While the employment position in the Commonwealth is more satisfactory than it has ever been before, it emphasises that Austraha is reaching the limits of its manpower resources, and additional demands for recruits for the services and for war industries will have to be filled by (a) diverting labour from non-essential industries or (b) the emplayment of women.

Restaurant Incident

T is not often that we find ourselves within throwing distance of an incident like this. What makes it so inferesting is the fact that the male principal in the little drama we are about to unfold is so well known.

It happened on one of those rare occasions when we "tiffined" in town. It was at a time when most of the diners had vanished. and we ware left dawdling over a late lunch with but three others -the man already mentioned, and two ladies who were sitting together on our starboard bow. After a while the man was seen to come suddenly to his feet and lurch across the restaurant-following a perslous course which brought him to a half in front of the table where sat the two It was not hard to see that his

sudden intrusion on their tete-atete was regarded with grave displeasure, and the fact that he was a little under the weather only helped to freeze the reception which his offer of drinks received. Lady No. 1 elected to ignore him. but Lady No. 2 being of a more spirited temperament, threatened him with a glass of ice water which she hoped would sober him. But the threat fell on deaf ears and the overtures continued Would lady No. 2 hurl that glass we wondered? She would-and did. The ice water hit our gentleman square between the eyes, and he departed-a sadder and (we hope) a wiser man.

Friday's Visit To France

THE SCARCITY OF enemy aircraft encountered was again the feature of the R.A.F. sweep over Northern France on Friday. Two Polish fighter squadrons led by a Canadian were unable to find enemy fighters in the sky and so went down and machine-gunned them on the ground.

Most of the attacks were made from a height of only 50 feet while some pilots came as low as 20 feet. Besides aircraft they attacked artillery, machine-gun posts, hangars and a fire tender.

The Poles destroyed three ME 109's on the ground and damaged four others which they machine-

The Canadian who led them shot up a fire tender which was burnt out and sent an ME 100 on the ground over on its wings.

Other squadrons attacked the airfield at Guines, . The ground staff ran in all directions as the Spitfires swooped down with guns firing.

One pilot machine-gunned troops in a military camp on the way back to the coast. When one Polish pilot returned to base he discovered his port exhaust pipe had been knocked

off by anti-aircraft fire. Only two enemy aircraft, were seen in the sky-ME 109'swhich bolled at the sight of the Spitfires.

INCREASE IN MEAT RATIONS

THE MINISTRY OF ANNOUNCES THAT MONDAY, JULY 7. THE MEAT RATION WILL BE INCREASED TO 1/20 FOR ADULTS AND 70 FOR CHILDREN.

This increase has been made possible by the exceptionally large quantities of frozen meat which have arrived from the southern hemisphere in the last few weeks.

The Ministry anticipates that increased imports, together with expected home-produced supplies, will enable the meat ration to be maintained on the new level for some time to come without any reduction of reserves in cold storage in Britain.

Painful, swollen (vancose) veins are restored to a healthy condition, skin troubles clear up, leg wounds (bad leg) become clean and healthy and quickly heal, inflammation and irritation are southed, piles disappear, theumatism simply tades away and the whole system is braced and strengthened. This is not magic although the velief does seem magical : at is the natural result of revitalised blood and improved circulation brought about by Elasto, the liny tablet with wonderful

Everybody is Asking-What is Elasto?

This question is fully answered in an interesting Booklet, which explains in simplelanguage this amazing new method of curing through the blood. Your copy is Free, see offer below. Suffice it to say here that Elasto is not a drug, but a vital cel-lood which must be present in the blood to ensure complete health. It restores to the blood the vital elements which combine with the blood albumin to form organic elastic issue and thus enables Nature to restore elasticity to the brokendown and devitalised fabric of verns, arteries and heart, and so to re-establish normal, healthy circulation, without which there can be no true healing ! The health of every organ and tissue of the body depends upon healthy cellular activity, and to ensure this, vigorously circulating oxygen-rich blood is absolutely essential. NINE TIMES OUT OF TENTHE REAL TROUBLE IS BAD CIRCULATION.

How to Lose Fat A Pound a Day on a Full Stomach

Do Just One Simple Thing and Fat Just Melts Away

NO starvation or dicting; no going without foods or drinks. Instead, cat what you want with never a rebelling. upset stomach. Yet ugly fat quickly goes. You can easily lose from four to seven pounds a week. See the ugly fat replaced by a beautiful slam figure - and feel stronger, better and more energetic than your ever have in your life before-

What You Do .

There is just one simple thing to do. Give your system the minerals and herb conditioners contained in BONKORA, obtainable at any chemist shop. Take two teaspoonfuls, preferably in a glass, of orange juice, before meals three times daily, a pleasant and inexpensive drink. Then eat whatever you want and watch the far harmlessly and healthfully disappear.

7 to 10 Pounds Lost in 7 Days

At the end of one week you'll see the scales drop seven to ten pounds - according to how much overweight you are -from what you were the day you started. Your health, too, will be much better. You'll have more strength and energy, your complexion will be improved, nerves will be far calmer, your stomach' won't be upset, and friends will comment about how much younger and better you look. You'll soon avoid the constant embarrassment, of being fat and ugly. And you'll do it without going on a starvation

BONKORA supplies the system with minerals, stimulates a normal functioning of the body. BONKORA also clears the system of accumulated poisons most over-weight people have. Start to-day. The BONKORA way is the safe way for men and women to take off fat. Test it for two weeks.

BONKORA is absolutely harmless, sufe and effective. It definitely does not contain thyroid -consisting only of, natural and mineral ingredents.

Cat-Stretch For Figure

If you have ever envied the undulating, liquid movements of a cat, you will be interested to know that figure control and rhythm may be acquired by taking a lesson from the cat. A cat's grace of movement, we are told, comes from stretching slowly and languidly and by knowing how to relax every muscle in its body.

Based on this principle is a series of stretching exercises which are to be done with the aid of a strong elastic band, looped at each end. Through this method one is promised the rewards of figure limbering, reducing, the easing of tension and the acquisition of balance and poise. A pretty big reward, we think, for a few moments of exercise each day, Here are a few of the movements:

1-Stand erect with both arms overhead, hands through the band's loops. Pull one arm as far riown the side as possible as you resist the pulling by keeping the other arm straight. Then reverse the movement. Repeat five times.

2-Sit erectly, grasping loops of band. Stretch arms wide apart overhead and rock hard from side to side on fatty part of hips. Relax once in a while but rock fifty times, 3—Sit with knees straight, toes

pointing to ceiling. Stretch band high overhead. Holding this stretch fall backward to floor slowly and sit up again. Repeat

You'll see any number of dots on frocks for summer. There'll be dots mixed with daspes like something from the Morse code; dots forming squares

Frock in the sketch is an example of just what use is being made of the ubiquitous dot. It is in navy and white shilling size dotted foulard, trimmed with

bands of white foulard with cherry pink dots. British textile manufacturers can no longer complain that London'dress designers are not showing off their goods to the very

HIGHLY-STRUNG CHILDREN are the most gifted

But you should watch out for these DANGER SIGNS of nervous overstrain

YOU should be specially proud if your child is the highlystrung, sensitive type. She is so much quicker, more vivid in her reactions than other children. Even when she's very young, you can see that she has exceptional qualities—qualities that mark her out for success. In

on your gliard. In the bringing-up of highly-strung children there are dangers that do not arise in the case of ordinary children.

But you should be continually

Highly-strung children spend their energies too recklessly. They are prone to weaken and exhaust their nervous systems with bad effects in later life.

The signs of nervous overstrain to watch out for are: difficulty and slowness in eating meals; paleness and tendency to get overtired; tantrums and fits of irritability and bad temper. If these signs occur, action should be taken at once.

What is happening is that the child is using up her nervous energy more quickly than she's replacing it. And it is at night during sleep, that these stores of nervous energy should be replaced. 'If they are not replaced, the

nervous strain on the child gets

Now that the Lawn Bowls season is back to normal, weather permitting, R. P. Phillips, energetic Hon. Secretary, is again being rushed off his feet keeping a check on the many Hong Kong Lawn Bowls Association activities, and in this connection I would like to pay tribute to a man who does a great deal more than is ever appreciated. Lawn Bowls in Hong Kong is in as healthy a state as it has ever been, and this is due in no small measure to the whole-hearted co-operation of Phillips with the president of the H.K.L.B.A., His Honour the Chief Justice, Sir Atholl MacGregor, whose keenness is most apparent at all times.

whilst the battle between Joe Eastman think that they can beat Alec Hydeand Marques as second men should be Lay's rather more solidly constructed rink comprising Henson, Peckham and Phillips.

Alves's Turn!

At Austin Road the same old gang Leo Silva, A. M. Rodrigues, Chico Ribeire and Dick Alves are out on the war path. And it is the latter's turn A. H. Rumjahn is skipping a rink to skip this year—they take it in turns make the grade all right.

Jim Shepherd's League rink, unbeaten as I write, meet Vic Chitlenden's K.F.C. quartette and should win by eight shots at the least. They strong all down with Willie Dall star of stars. Tony Guterres has a fairly useful rink against what was originally George Sherriff's 2nd Battery four, but it will now be skipped by Bebbington I expect. I have not heard who will be brought in as a substitute, but whoever it is I jancy the Recreio representatives to out them.

Now over to the Island where first vice Cricket Club, Four from Hong Chalmers' Taikoo quartette are no easy but Pile's Stanley four seem to be the stronger.

Abbas Favoured

There is sure to be an epic struggle at Craigengower, between "Abe" Abbas' four-J. Hoosen, A. M. Rumjahn, and A. R. Dallah-against H. Gittins, T. K. Lim, W. J. Howard and A. Spary, Kowloon Tongites, Abbas lost for the first time in the League vesterday, whilst Dallah is playing as well as 5 ever, and I am not forgetting the brilliant form displayed by Howard this 65 year when I forecast a win for the I.R.C. rink.

Al Lau toiled on the mound for Chung Hwa for the whole of the nine eventful frames, fanned six and walked six, but was nicked for seven solid blows, whilst his mates collected only three safeties off Mohawk hurlers Bernie Johnson and Denham Crary.

Taking advantage of three free MOHAWKS passes off Bernie Johnson, assisted by a couple of misues, Chung Hwa took a 3-1 lead from the initial frame but the count was deadlocked in the third when the two Waggonermen romped over the platter on a pair of doubles. Two more markers on a pair of bobbles put the Maroons ahead, but Mohawks came right back in the sixth with four tallies to take the lead again. Coming up for their last turn
